PROJECTS

POETRY

Python dependency management and packaging made easy.
<https://poetry.eustace.io>

ORATOR

An ActiveRecord ORM for Python.
<https://orator-orm.com>

PENDULUM

Python datetimes made easy.
<https://pendulum.eustace.io>

CLEO

Create beautiful CLI interfaces.
<https://github.com/sdispater/cleo>

ABOUT ME

I'm a software engineer, proud pythonista (but knowledgeable in other languages and technologies as well) but overall an open source lover. I like to craft beautiful APIs to make my projects intuitive and easy to use.
